

# 2023 Live Online Summit Award Camps for Juniors and Cadettes!

**Get ready** to embark on an adventure that celebrates technology and the out-of-doors that will change the world... all from you own home! Log onto our computers with complete online LIVE step-by-step instruction, and full tech support!

## **Junior Cadette Summit Award Day Camp (\$245/girl)**

*Earn three journeys over the week, including the take action project!*

### **Think Like A Citizen Scientist (Juniors and Cadettes):**

Help scientists document biodiversity, and NASA measure tree heights and cloud formations, and help spread the word about issues related to the environment!

### **Think Like An Engineer (Juniors and Cadettes):**

Tinker around with building structures, the design process, and how engineers think! Then use what you have learned to build something to help people with disabilities!

### **Get Moving (Juniors):**

Play games to learn about the ways we use energy and how it affects the environment... then put your energy to good use in a "take action" video!

### **Breathe (Cadettes):**

Conduct experiments to see firsthand the effects of pollution, then share your passion for the environment through a video presentation!

**July 17-20, 2023 from 9:00am to 3:30pm, PDT**
