What is a Hybrid Workshop?

A Hybrid workshop offers the flexibility of attending the event either In-Person or Live Online (see panel to the right). Interested in a workshop, but unsure whether you can attend in-person or not? Register for a hybrid workshop, and leave your worries behind! Because these workshops will consist of not only girls attending In-Person, but also ones attending Live Online, you can change your workshop format any time you like!

What is a Live Online Workshop?

A live online workshop is a way for Girl Scouts to connect and complete a journey or badge online with full tech support start to finish! Each Girl Scout, seated at her own computer in her own home, connects securely and privately online with other scouts for experiential activities and collaboration that we facilitate! The girls also log onto our computers in order to use our software to complete their projects! Since these computers they are utilizing (remotely) are in front of us at our offices, we are able to provide step-by-step instruction and assistance for girls of any level! Device requirements include internet connection, and separate devices for Zoom and to interact on our computers.

Registration deadline is 10 days prior to class!
